

specification

D6 point light source

Product Parameter

product model	D6
Type of luminescence	Point light
Shell size (mm)	source 53.3
light-emitting area (mm)	6 Over
degree of homogeneity	
input voltage	90% 5V
power	3-5W
Color temperature/wavelength	W: 6000-7000K、R: 620-625NM、G: 520-530NM B: 460-470NM、IR: 850-940NM、UV: 365-395NM
wire length	500mm
joggle	SM-3P=P
Definition of wiring	L (+), R (-)
work environment	0-40 ° C
life length	After continuous operation for 30,000 hours, the attenuation is 50% (depending on the operating environment, this is not guaranteed).
